Reliant Rubber

Qubex Roll ensures superior traction, durability, and comfort, making it ideal for indoor/outdoor walkways, vehicle mats, rampways, and more.

WALK WAY

It can be used for outdoors/indoor walkways.

- Anti-slip surface.
- Easy to clean.
- Durable surface for high foot traffic.
- Easy to install.

VEHICLE FLOOR

It can be used as vehicle floor mat, UTE mat, boot mat etc.

- Customizable sizing.
- Easy installation and cleaning.
- Protects against spills and debris.
- High resistance to scuffing and scratching.

RAMP WAY & LOADING AREA

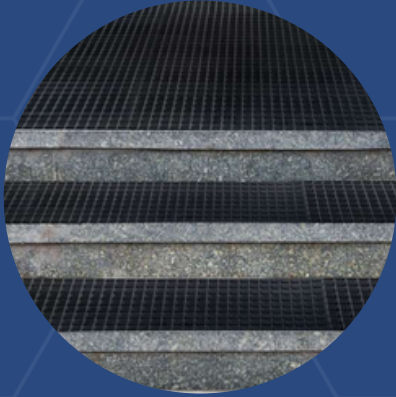

It can be applied across any ramp type & loading area ensuring safety and efficiency.

- Superior traction to reduce slips and falls.
- Robust materials for heavy use and harsh conditions.
- Effective in all weather conditions.
- Quick and straightforward application.
- Easy to clean and maintain.

Reliant Rubber

Qubex Roll can be securely attached to various surfaces like metal, wood, concrete, and tiles, by using the right adhesive under suitable conditions.

STEP MAT

This step mat is designed for versatility and convenience, making it an ideal choice for any step size.

- Can be custom cut to match any step size.
- Designed for hassle-free cleaning.
- Quick and straightforward to install.
- Constructed from natural and recycled rubber for long-lasting use.
- Provides excellent traction to prevent slips and falls.

RECEPTION AREAS

This mat is designed to enhance comfort and safety in various high-traffic areas.

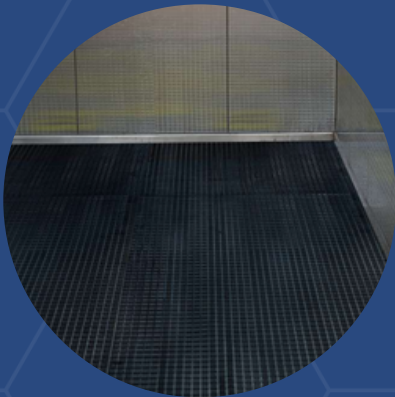

- Provides long-lasting comfort for extended standing.
- Suitable for various public spaces.
- Ensures safety by preventing slips.
- Built to withstand heavy foot traffic.
- Simple to clean for lasting performance.

LIFT FLOOR

This mat is designed to enhance the safety, comfort, and durability of lift floors.

- Ensures stability and prevents slips in the lift.
- Adds comfort during extended standing periods.
- Customizable to fit different lift sizes and shapes.
- Protects lift floors from wear and tear.
- Easy to lay down and secure.

LUGGAGE STORAGE FACILITIES

Can be used to protect and enhance luggage storage facilities.

- Durable and slip-resistant.
- Covers large storage areas efficiently with multiple rolls.
- Protects floors and shelves, as well as luggage from impacts.
- Provides an excellent grip for safe trolley handling.
- Easy to install in various storage room sizes.

COLD STORAGE ROOM

Ideal for temperatures as low as -30° to $+50^{\circ}$ C.

- Withstands a wide temperature range without altering its properties.
- Ideal for frozen food storage areas.
- Provides grip on icy and slippery surfaces.
- Maintains performance in fluctuating temperatures.

VAN LINEAR

Ideal for use in vans, cars, UTE, and more.

- Easily cut to fit any vehicle space.
- Simple to remove and replace as needed.
- Easy to clean for continued use.

A leading player in the field of specialist products and rubber technology.

Upgrade with Qubex Roll and make every step count for a greener future.
